

Spider Web Link

Climbing Netting: Rope cable system manufactured in 50mm, 22mm and 20mm sizes. To contain a minimum of 144 strands of galvanized steel threads that are heat adhered to polyamide nylon woven braid. During the weave process nylon to be treated with UV and Fire Retardant solutions. Connections to be individually cast and molded with high density recycled aluminum and compressed in place with over 75 tons of pressure. Once the connector has been set, it is to be loaded tested and certified by quality control to exceed all ASTM, CSA and EN 1176 standards.

The Spider Web Link is a fun way to link our already great Rock Climbers. Link the STRATO-LEDGE, STRATO-STRATO, LEDGE-LEDGE... well, you get the idea.
